Smit Valture

Profile

Currently, I am about to finish my pre-final year at college. In the course of these few years during graduation, we have been taught a lot of things. But the practical application of my knowledge will help me know how much have I actually learned. Joining your firm will gauge where I stand. No better opportunity than this can come my way. I can showcase my talent and prove my skills here, while in turn, I can learn how this industry functions in and out. That is why you may hire me for this internship.
